

TERM PROJECT

In this term project you are going to implement a personality test.

Your personality test will be based on the following steps:

You'll prepare 4 questions. These questions will be answered as Yes or No.

You'll start with taking the name surname, age and gender (M or W).

After getting the answers, you'll determine the personality type.

You'll print the personality properties by displaying the number and short information as given below and ask for user to rate the questionnaire, ranging from 1 to 10.

You'll then output the following into an output file named as "output.txt":

Name Surname, age, gender, personality number, rating of the user

1. Extravert / Sensing / Thinking / Judging
2. Introvert / Sensing / Thinking / Judging
3. Extravert / Sensing / Feeling / Judging
4. Introvert / Sensing / Feeling / Judging
5. Extravert / Sensing / Thinking / Perceiving
6. Introvert / Sensing / Thinking / Perceiving
7. Extravert / Sensing / Feeling / Perceiving
8. Introvert / Sensing / Feeling / Perceiving
9. Extravert / iNtuition / Thinking / Judging
10. Introvert / iNtuition / Thinking / Judging
11. Extravert / iNtuition / Feeling / Judging
12. Introvert / iNtuition / Feeling / Judging
13. Extravert / iNtuition / Thinking / Perceiving
14. Introvert / iNtuition / Thinking / Perceiving
15. Extravert / iNtuition / Feeling / Perceiving
16. Introvert / iNtuition / Feeling / Perceiving

RULES:

- 1) You'll prepare the questions by yourself. Our aim is not to implement a real personality test but try to mimic the characteristics of a personality test.
- 2) You'll form groups up to 3 person. Details about how to form the groups will be posted to online education system later.
- 3) The submission date for the project is June 22 12:00
